

May 1, 1942.

Mr. Jocko Maxwell,  
60 Greenwood Ave.,  
East Orange, N. J.

Dear Jocko:

I am hastening to answer your last letter although I am very busy now, I felt you may be expecting an answer before Opening day.

Of course, I want all the publicity possible to get for the Eagles, but I feel the program that you outline should be a Negro National League proposition, and not just my one Ball Club. If all the broadcasters you mention feel cooperative I would not like having them mention the Newark Eagles only, I feel such a program should very definitely be in the interest of all Negro base ball, not only the Negro National League but the Negro American League also. I will be glad to discuss it with you and either contact the other League Members through the mail, or have you attend our next League Meeting. You really should have brought this matter to my attention during the past winter. It is almost impossible to do any baseball business over night, everything connected with the promotion must be planned long in advance.

I hope to see you soon, so we can discuss the matter further.

Very truly yours,

EM:CCJ
